## Why J.N.N Arts & Science Women's College

J.N.N Arts & Science Women's College (J.N.N.A.S.W.C) offers an education that broadens the mind and provides liberal thinking that encourages the questioning of assumptions and reliance on facts that can be interpreted differently through different lenses. We open the doors, enabling the mind to go wherever it wants in the pursuit of knowledge and understanding. We offer a comprehensive curriculum through which students will gain strong foundational knowledge and a wide range of other courses that the students may not have exposure in a regular undergraduate program.

We aim to build a culture that places enormous emphasis on value and enables the community to derive achievements and success from this foundation, rather than by replacing it. As an institution dedicated to learning, we invest in intellectual vitality and engage with stakeholders to make a difference locally and nationally. Our contribution to this shared efforts are the unique knowledge, transformative approach and skills generated by our core activities of education and research. Our success will be visible in continued growth of our impact and reputation, and that of our region.

We attract students and faculty who are intellectually curious, independent learners, value honesty, collaboration, and are passionate about making a difference. We embrace and celebrate the beauty in differences and use these opportunities to grow, evolve and learn.

## A Distinct Liberal Arts Learning Experience

J.N.N Arts & Science Women's College has developed the academic programme based on building the 21st Century skills - Model of Boston Consulting Group (BCG) and World Economic Forum (WEF). To thrive in today's innovation - driven economy, workers need a different mix of skills than in the past. In addition to foundational skills like literacy and numeracy, they need competencies like collaboration, creativity and problem-solving and character qualities like persistence, curiosity and initiative.

Changes in the labour market have heightened the need for all individuals, to have these skills. In countries around the world, economies run on creativity, innovation and collaboration. Skilled jobs are more and more centred on solving unstructured problems and effectively analysing information. J.N.N.A.S.W.C focuses its academics, co-curricular and extra-curricular initiatives to enhance the students' skills.

## ▶ J.N.N EDGE – The Philosophy

J.N.N Arts & Science Women's College is dedicated to giving a liberal arts experience to the students, providing them an Integral, Holistic and Ecological world view, essentially trying to describe the interconnected nature of the world and human experience. Hence, J.N.N EDGE has been introduced as a unique model that nurtures the broad development of the students and maps a synergistic relationship among intellectual, emotional, social, physical, creative, aesthetic and spiritual potentials.

### 🍃 Learning to Know

Learning to Know involves the acquisition and development of knowledge and skills that are needed to function in the world.

### 🍃 Learning to Live Together

Learning to Live together involves the development of social skills and values such as respect and concern for others, social and interpersonal skills and an appreciation of the diversity among people.

### 🍃 Learning to Do

Learning to Do involves the acquisition of skills that would enable individuals to effectively participate and gain occupational success in the global economy and society.

### 🍃 Learning to Be

Learning to Be involves activities that promote holistic personal development and cultivating one's self analytical and social skills, creativity, personal discovery and an appreciation of the inherent value provided by these pursuits.
